Infosys Springboard Virtual Internship 6.0 Completion Report

Topic name: Infosys_WellNest Smart Health & Fitness Companion.

Team: Mohana V. Kandula, Aditya B. Singh, Anusiya D.

Project name: Fitness Square

Date: 21/02/25

Batch: 11

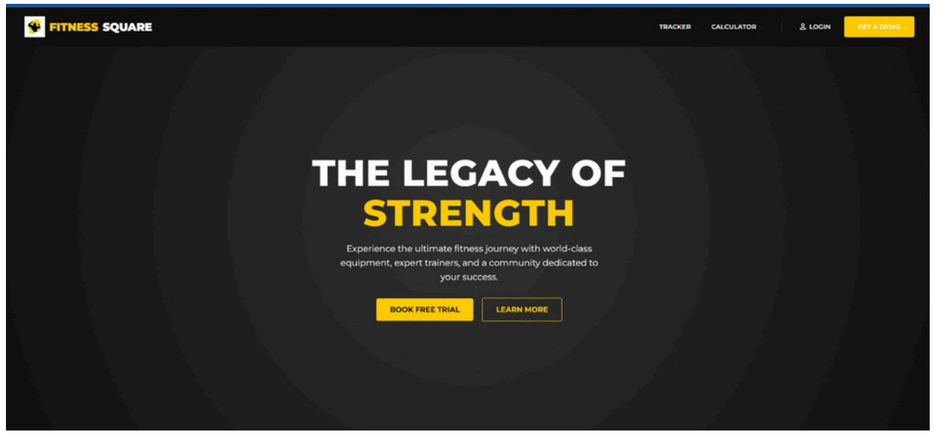
WEEK: 8

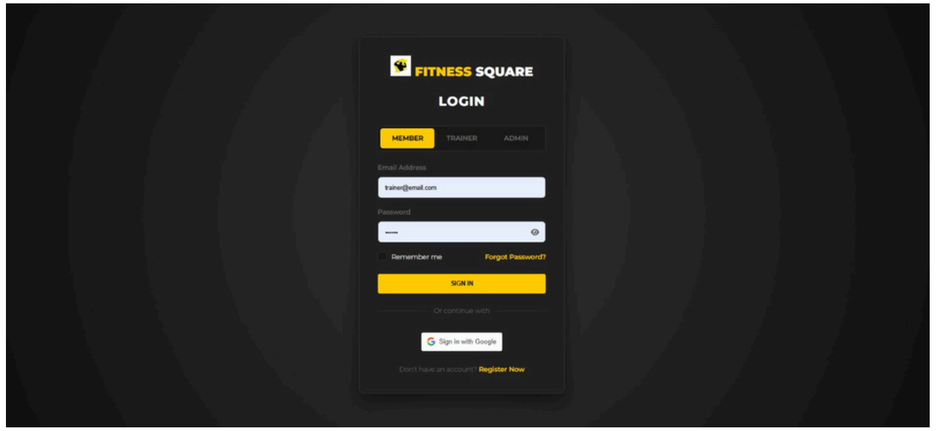
FITNESS SQUARE

WHAT IS FITNESS SQUARE?

- Enable users to track daily wellness activities including workouts, nutrition, and recovery while receiving logic-driven personalized health insights and connecting with certified trainers.

- The system utilizes structured goal tracking, performance analytics, and streak-based progress monitoring to promote sustainable fitness habits and professional trainer-client collaboration.

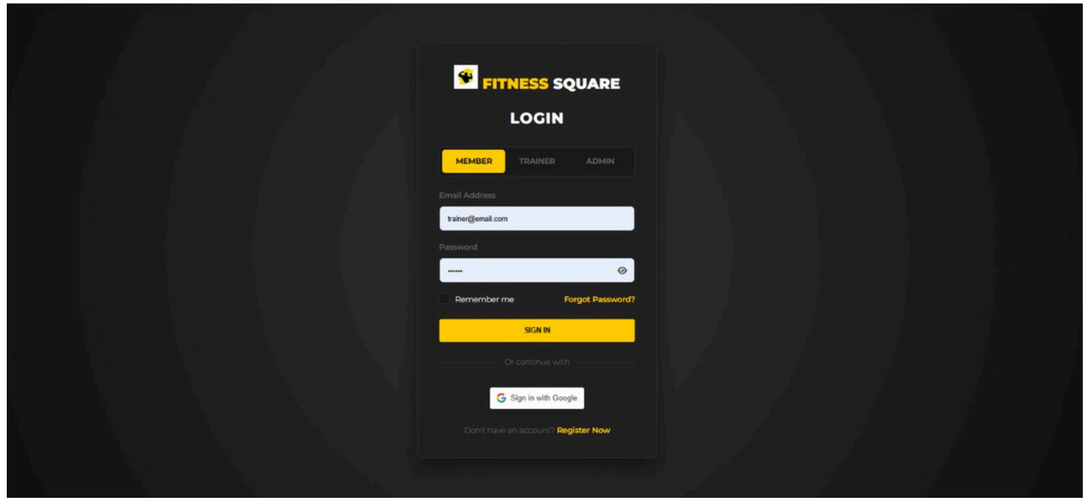


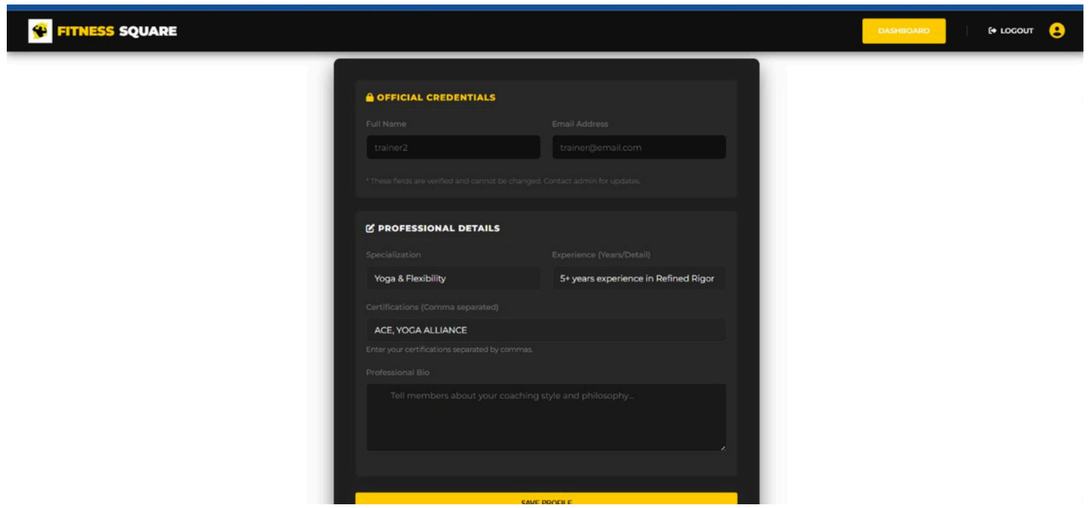


WEEK: 1-2

LOGIN & PROFILE

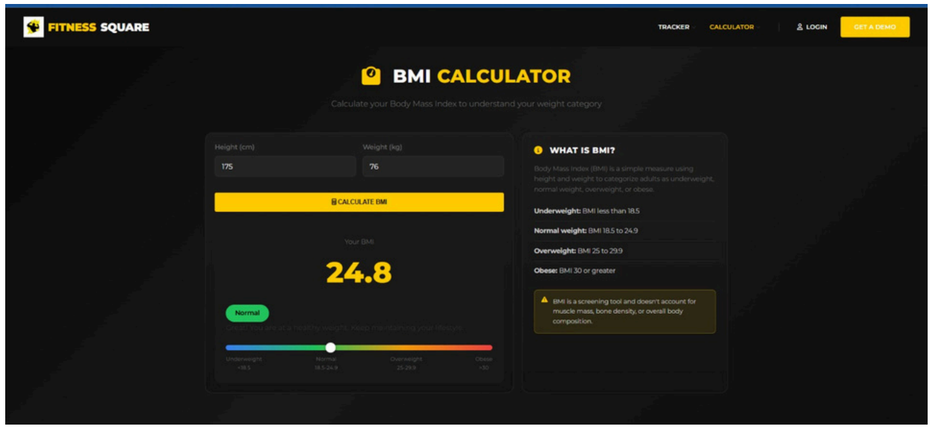
- Multi-Channel Login: Secure JWT-based traditional login and Google Social Authentication integration.
- Verification Layer: Implemented an OTP (One-Time Password) system for secure account verification and resend logic.
- Medical Profile Integration: Capability for users to upload and store medical records, which are used to tailor health recommendations.

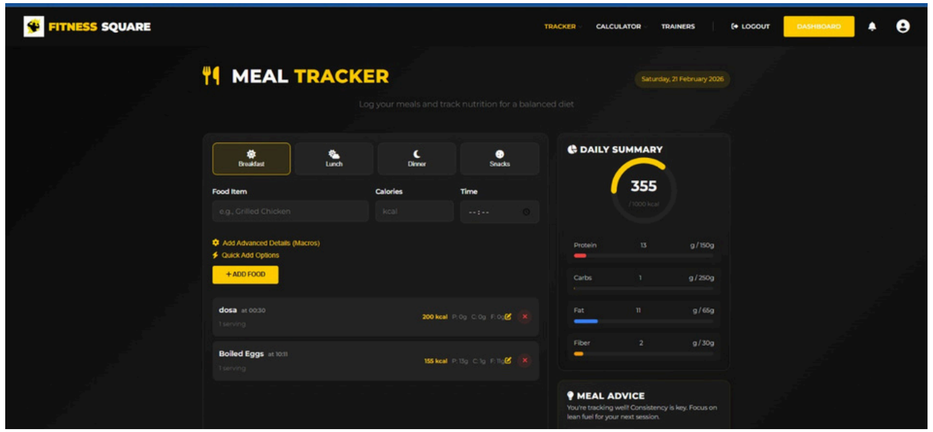




WEEK: 3-4

TRACKERS & CALCULATORS

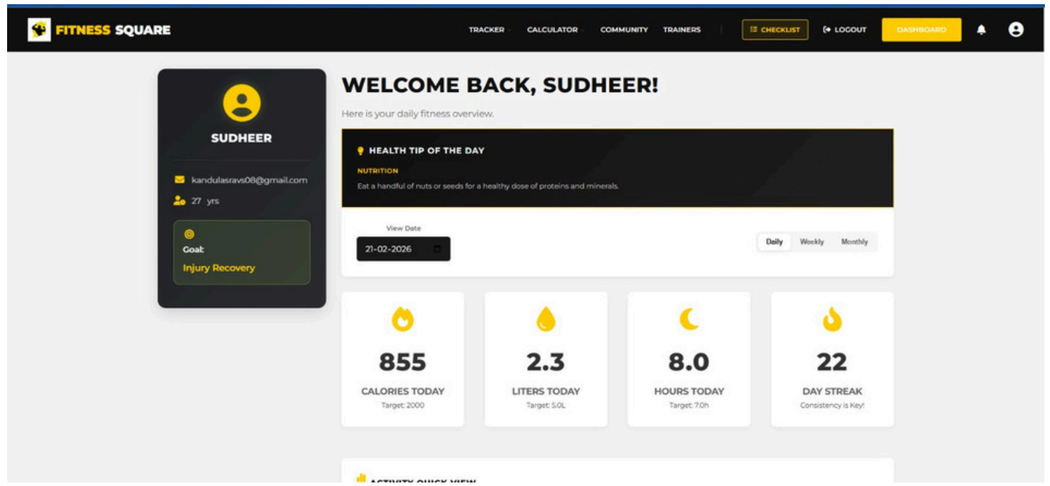




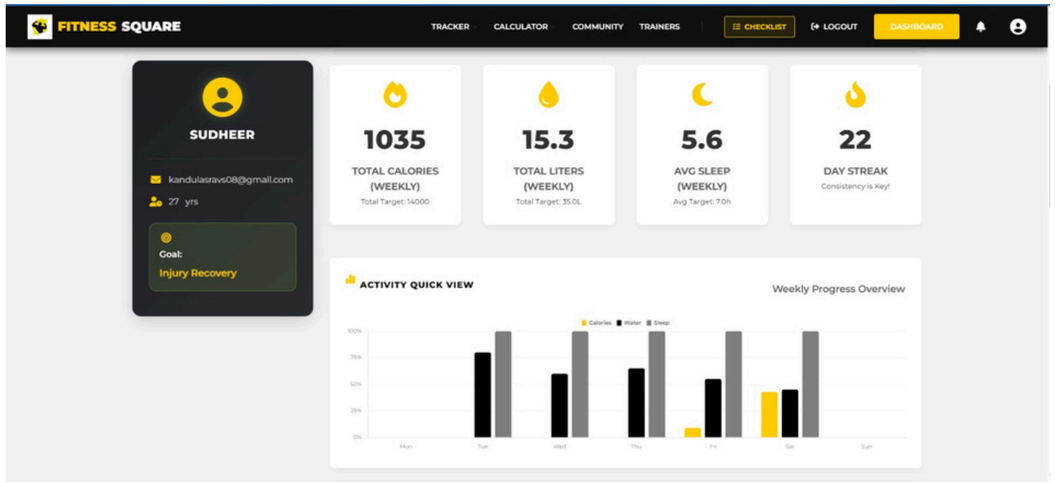
WEEK: 5-6

FITNESS DASHBOARD

- Interactive Dashboards: Dynamic Chart.js visualizations for tracking workout frequency, calorie trends, and health score growth.

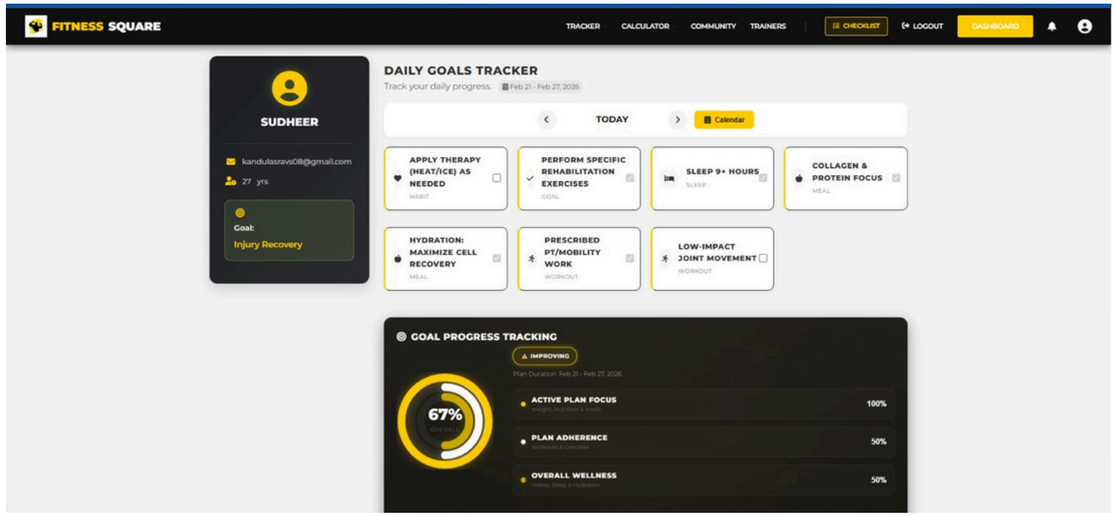


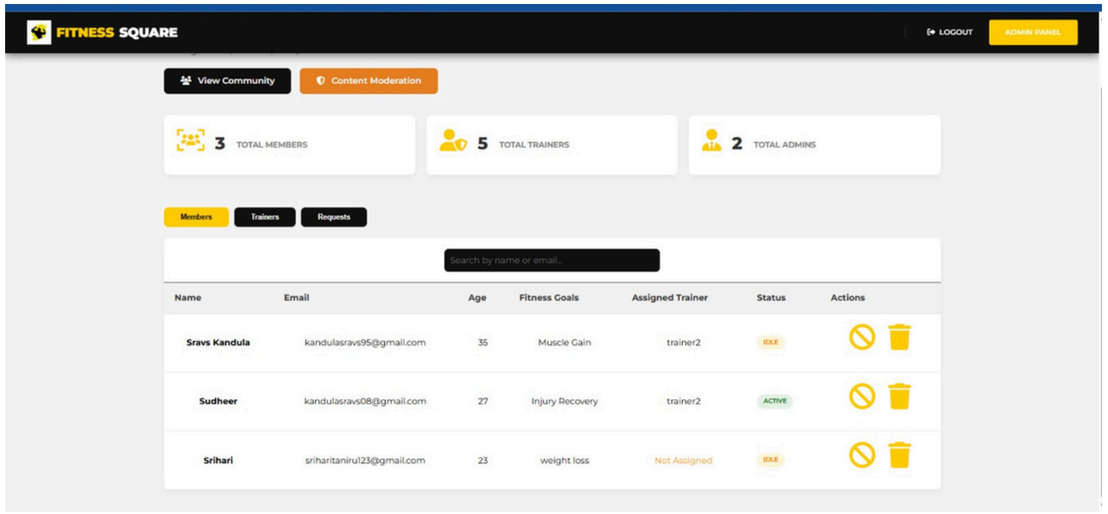
- Streak Monitoring: A streak detection algorithm in the backend that tracks consecutive daysof goal completion to boost user engagement.

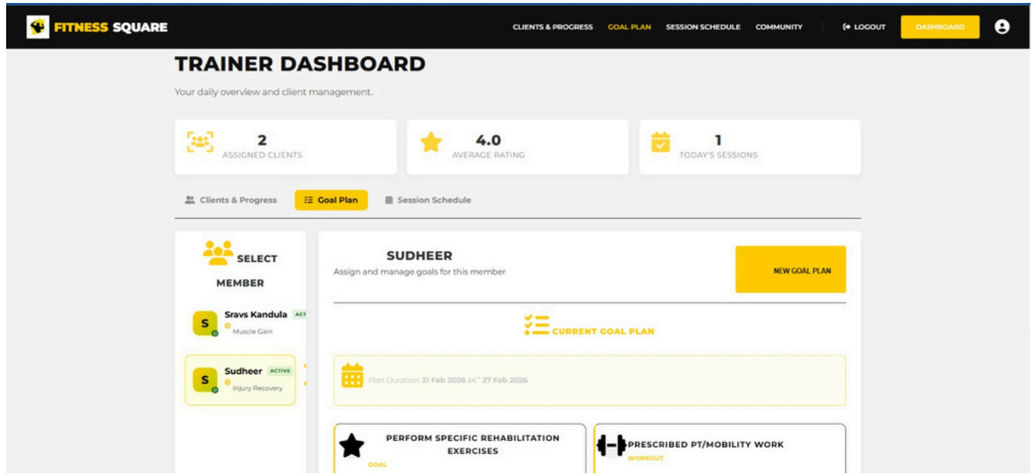


WEEK: 5

TRAINER, ADMIN DASHBOARD

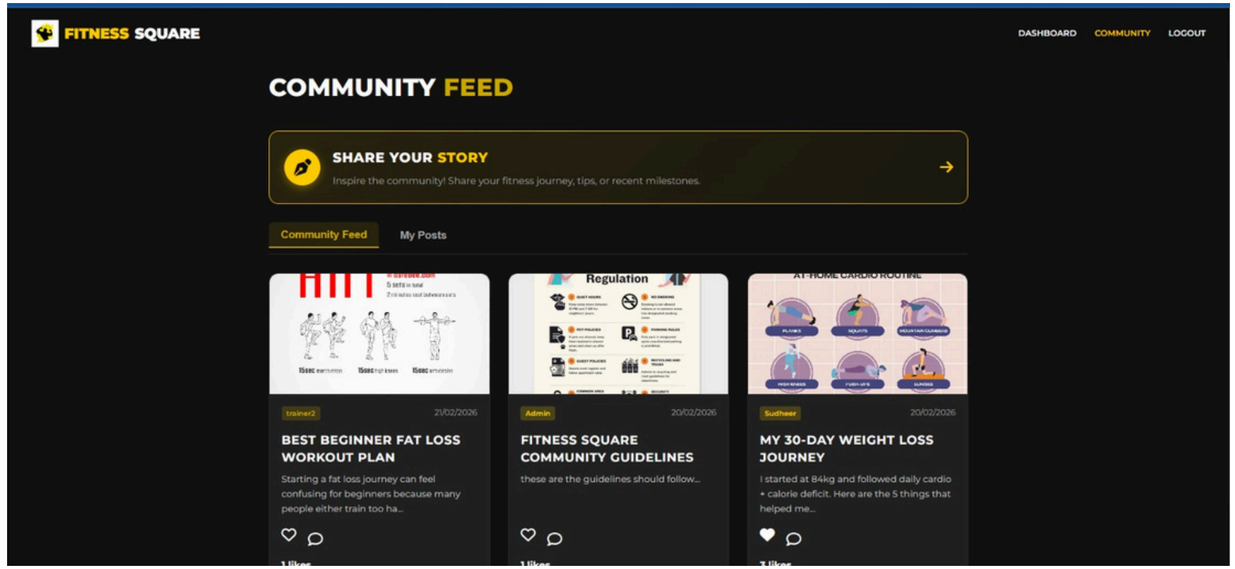


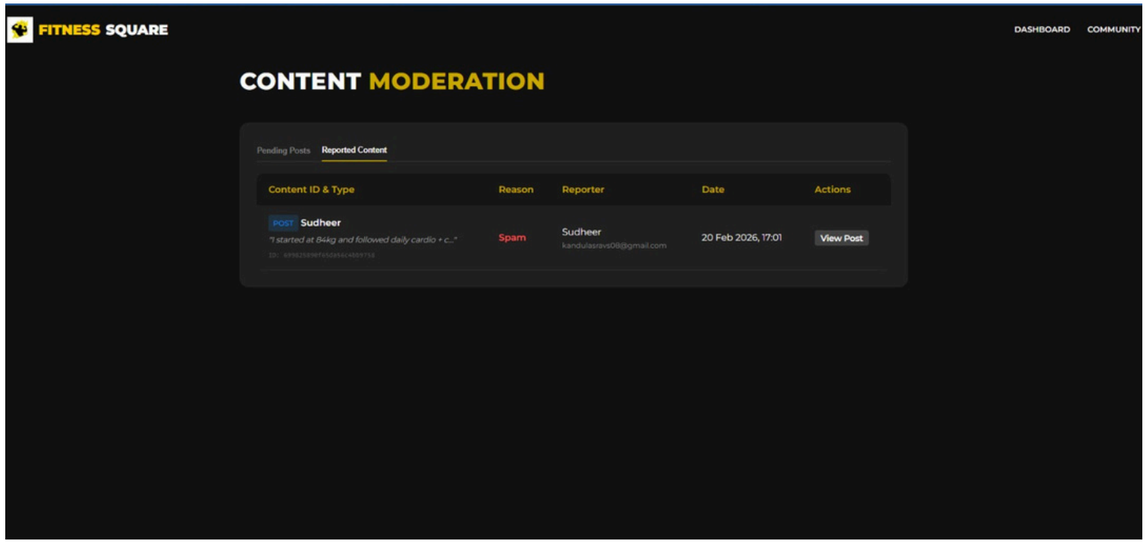




WEEK: 8

COMMUNITY (BLOG)





CONCLUSION

The internship experience was highly enriching and professionally transformative. Working on the Fitness Square project allowed us to apply theoretical academic knowledge to practical, real world scenarios. Through hands-on development of authentication systems, dashboards, analytics, and intelligent health modules, we strengthened our full-stack development skills andgained confidence in handling complex technical challenges in a professional environment.
